DATA UNPLUGGED

Accelerator Program

Data Unplugged accelerator program is designed to enable businesses to roll out curated analytics to their personnel in 5 weeks focusing on one business challenge or one area of business at a time. Access to analytics enable users to fact based comprehension and go beyond intuition when making decisions to achieve excellence. It is fast, reliable and scalable. More importantly, it unleashes the power of data distribution and consumption of analytics beyond the firewall with security using pre-defined framework and process.

BENEFITS:

- High ROI: Fixed cost, quick turnaround and faster adoption yields high returns on investment and effort.
- Higher Productivity: Faster adoption drives uptick in performance metrics.
- Higher Utilization: Agile implementation framework boosts usage of infrastructural resources to optimize cost.

WHY US?

- Subject matter expertise, combined from both companies (Team Clutch + Information Builders), provides the foundation for a successful and “built for purpose” solution.
- We take pride in your business as much as we do in our business.
